Each supplemental ranker was changed for each ranking period and the committee will look to continue to rotate rankers. We feel that the process is very transparent, and including new rankers with each release continues to educate on the process overall and releasing the most fair and accurate rankings for the ICSA.

Sailing World was a great partner. We would like to thank Dave Reed for his energy throughout this year.

Questions for the committee came in the spring semester:

1. We were tasked with performing a National Ranking in the midst of the team racing season.
2. Sail1Design team racing rankings came out. How we released in conjunction with those rankings without confusion.

3. CSR in conjunction with the Sail1Design and Sailing World Rankings. How do we balance all of these platforms and communicate appropriately with the ICSA member schools and fans.

We may will review our annual process before the fall season and present a recommendation for the fall 2022 to the ICSA President.
