

Scheduling Committee Report

1. The Scheduling Committee was tasked with taking up the work the ad-hoc split season committee began. It is our hope to present that concept on a special Summer Meeting called specifically for that purpose. In short, the committee was surveyed for who had interest in working on this process, and now is pursuing the options.
2. The Scheduling Committee would like to remind everyone that any changes to the schedule should be submitted prior to June 1. We will publish a skeleton of the 2023 schedule then, and then finalize it on October 15.
 - a. College of Charleston has removed their spring invite and intends to host an Open Interconference Fleet Race on Fall weekend 4 (Danmark).
 - b. The Committee expects to see additional team race events added on weekends 10 and 11 in the spring.
 - c. The committee suggests that Women's Team Race National Championship be held on weekend 13 in the spring.
