

ICSA Scheduling Committee Report
23S Annual Meeting
May 22, 2023

The Scheduling Committee has worked on a number of items over the past year.

In particular, a major undertaking was documenting all of our scheduling policies and procedures. Dan Thompson took the lead on this, and he has done a lion's share of the work to get this document outlined accurately. We present it today for discussion, and remind all that it is mostly a documentation of how things are currently being done, not a proposal to change policy (for the most part).

A few important things to highlight:

1. We tried to document the different ways berths become open, and how they are filled as a result.
2. Second teams is a PR change: even though we have been functionally adding second teams to Regional events, we recommend the Rules committee review and change the PR to accurately reflect the language in the guidelines document.
3. The ability to drop a lower ranked regatta for a higher ranked berth on the same weekend is new.
4. We recommend Rules Committee rewrite PR21 for the techscore era.

Important Notes:

- Dartmouth will not be able to host the Captain Hurst this fall.
- Review of communication: All Interconference add drops should be going to intersectionals@collegesailing.org (from conference schedulers).
